Hospital Group Earns Texas Mutual Dividend

AUSTIN, Texas — [Texas Mutual Insurance Company](http://www.texasmutual.com), the state's leading provider of workers' compensation insurance, announced a \$144,347 dividend to the Hospitals of Texas (HOTComp) purchasing group today. HOTComp has earned nearly \$250,000 in dividends during the past two years.

Group dividends are based largely on HOTComp's favorable loss ratio. By committing to workplace safety and helping injured workers return to productive employment, HOTComp improves its chances of qualifying for future dividends.*

Get more information about dividends at <http://www.texasmutual.com/news/dividendhistory.shtm>.

HOTComp members are also eligible to participate in Texas Mutual's individual policyholder dividend program. The company has distributed more than \$670 million in individual dividends since 1999.

- **Texas law allows employers in similar industries to buy their workers' comp insurance as a group.**
- **HOTComp members get a discount on their workers' comp premium and an industry-specific safety plan.**
- **Any licensed Texas agent can submit clients for consideration.**

**Past dividends are not a guarantee of future dividends. The Texas Department of Insurance must approve all dividends.*

About Texas Mutual Insurance Company

Austin-based Texas Mutual Insurance Company is the state's leading provider of workers' compensation insurance, with about 25 percent of the market. Since 1991, the company has provided a stable, competitively priced source of workers' comp insurance for Texas employers.
